

SIMPLIFYING BUSINESS WITH MAN DIGITALSERVICES.

Simply ingenious – ingeniously simple.

DIGITALISING YOUR FLEET MANAGEMENT IS EASY:

1.

Installation of the RIO box on your vehicle

2.

Your registration on the RIO platform: start.rio.cloud

3.

Online transmission of your vehicle data to the cloud and automatic activation of the free MAN Essentials service

4.

Activation of the free service MAN ServiceCare and the possibility of booking further, fee-based services via the Marketplace on the RIO platform

Further information about all services at www.digital.man.

FREE DIGITAL SERVICES FOR YOUR MAN VEHICLES:

The free MAN Essentials service gives you all the most important information on your MAN vehicles whenever you want it.

- State-of-the-art map data
- Simple journey history
- Vehicle-specific performance analysis
- Access to the Marketplace
- No risk and no further investment required
- The basic information required for efficient fleet management

With the help of the maintenance data provided by MAN ServiceCare*, your MAN service outlet assists you with vehicle analysis and the coordination and management of service appointments.

- Optimisation of your vehicle's maintenance status
- Maintenance appointments are bundled intelligently, saving time and money
- The resale value is increased
- Appointments can be booked easily and free of charge, and you get an overview of the current maintenance status, appointments, components that need to be repaired, and damage reports

*Not available for TGE

MAN ADVANCE

MAN Advance extends the data history you get with MAN Essentials to 25 months.

- Data history of up to 25 months
- Reliable journey history
- Vehicle-specific performance analysis
- Option of conducting trend analyses over extended periods of time

MAN BRIDGE

MAN Bridge is the ideal solution for anyone who wants to embrace the digital future with the on-board telematics module 2 (TBM2). MAN Bridge puts in place the technical prerequisites for the use of MAN DigitalServices on the RIO platform.

- MAN DigitalServices also available for trucks with TBM2
- Simple journey history
- Vehicle-specific performance analysis
- Efficient fleet management of new and existing vehicles

MAN MAINTENANCE

MAN Maintenance permits cost-effective, long-term maintenance planning and provides a comprehensive overview of your fleet's maintenance components.

- Monitoring of legally prescribed maintenance appointments
- Up-to-date display of consumable levels (e.g. fuel, AdBlue, engine oil)
- Reliable maintenance planning and flexibility when choosing a workshop
- Easy management of service appointments
- Optimisation of your vehicle's maintenance status

MAN COMPLIANT

MAN Compliant ermöglicht eine einfache Kontrolle und Archivierung von Tachographen- und Fahrerkartendaten.

- Automatic remote download of tachograph and driver-card data
- Archived data can be exported for storage on a local data carrier
- All legal requirements are met
- Saves time spent on fleet management, since there is no need to manually download the data from the vehicle onto a memory stick

MAN PERFORM

MAN Perform analyses all vehicle data over a specified period with regard to the driver's driving style. You can see immediately how economically a driver drives. It provides you with an ideal starting point from which you can further develop your drivers.

- Detailed driver* and vehicle performance analysis
- Driver assessment*
- Optimisation of driver and vehicle deployment
- Data available in real time

*Prerequisite: digital tachograph

MAN CONNECTED CODRIVER

The driver is coached remotely in the cab by a MAN ProfiDrive® trainer. Based on a detailed analysis of their driving style, drivers receive trip- and vehicle-specific recommendations over the phone.*

- Clear and simple driving tips for a more efficient driving style
- Live driver coaching over the phone
- Fuel and maintenance costs saved, with lasting effect

*Not available for TGE

THESE DAYS, “STRONG TOGETHER” MEANS INTELLIGENTLY NETWORKED.
